CHICAGO, Aug. 11.-The Very Rev. Pryor Vanghan of London is lying at the point of death at the Anditorium annex. He was overcome by the heat yesterday and is now in a critical condition. He is a brother of Cardinal Vanghan of England and is making a trip around the world for his health.

GREATER NEW YORK.

Ambulance and l'atrol Gongs Sounded Throughout the Day.

NEW YORK, Ang. 11.—The number of deaths caused by the heat in greater New York is about 188 and additional victims are being reported hourly.

Advices from towns just beyond the limits of greater New York add many names to the death list. It is now estimated that 188 persons in and around the city died of heat yesterday.

The prostrations are almost innumerable and no accurate statement of them can be made. Ambulances and patrol wagons have been running about all day, the clamor of their gongs becoming a familiar sound. Streetear horses have dropped in the tracks by scores. Out of door work has been largely suspended and many factories are temporarily closed.

Sunday night was the hottest of the summer, the climax of the present torrid spell, and one of the hottest known in the city for years. Morning brought no relief and at 8 a. m. the thermometer stood five degrees higher than at the same hour Sunday, but as the humidity was less intense than on the preceding day there was less discomfort in the atmosphere. Early in the morning there was but 50 per cent of lumidity which is rather below the normal,

Street temperature taken in the shade at a point near the eenter of the city was 86 at 4 a. m., rose to 97 at 11, to 99 at 1 p. m., to 102 at 4 and nt 6 had fallen to 92 and further dropped to 89 at 9 p. m. Suffering has been most intense in the tenement sections, where poor people are muable to get breathing space. In these sections the charitable organizations have had their hands full, many the Schlitz, the Pabst, the Indianapolis infants and children succumbing to sun-

heated term reported yesterday is 12, making a total of 36 together with about 70 prostrations. The highest point reached today was 89 between 11 and 12, a subsequent thunderstorm somewhat alleviated atmospheric conditions.

Indianapolis, Ang. 11.—There were two deaths in this city yesterday as a result of the intense heat. They were Elmer Thompson of 106 Dongherty street and George Zapp of West Michigan strect.

Boston, Aug. 11.—Private thermometers registered as follows yesterday. Amesbury, Mass., 102; Providence, 100; Brockton, Mass., 102; Attleboro, Mass., 100; Manchester, N. H., 102.

CROP CONDITIONS.

Corn Saows Improvement For August. Cotton, Wheat and Oals Have Fallen.

WASHINGTON, Ang. 11.—The report of the statistician of the department of agriculture for August indicates an improvement in the condition in corn over that reported last month of 4.4 points or from 92.4 to 96. The averages of the principal states are:

Ohio, 103; Kentucky, 102; Indiana, 105; Illinois, 106; Iowa, 103; Missouri, \$5; Kansas, 109; Nebraska, 108.

The condition of spring wheat has fallen since July report from 93.3 to 78.9. a decline of 14.4 points. The conditions by states are as follows:

Miehigan, 83; Illinois, 83; Wisconsin, 82; Minnesota, 80; Iowa, 84; Kansas, 55 Nebraska, 77; South Dakota, 89; North Dakota, 70; Washington, 90; Oregon, 90; California, 109.

The condition of oats has fallen since last reported nine points or from 96.3 to 77.3.

Spring rye condition is 88, against 98.6 in July, while barley has fallen from 88.1 in July to 82.9 for August.

The acreage of buckwheat is given as 99.5 per cent of last year's area, condition of same, 96. Condition of Irish potatoes 94.8, against 99 in July. Condition of tobacco 86.5, against 91.5 July 1.

Reports on the European grain crops are generally favorable. The wheat crop promises to be up to the average. Forage crops will be short in Great Britain if drouth continues. The August returns show a reduction

in the condition of cotton during the month of July from 92.5 to 80.1, or 12.4 points. The condition same time last average for Angust ever given. The averages of the states are:

Virginia, 86; North Carolina, 96; Sonth Carolina, 88; Georgia, 92; Florida, 84; Alabama, 73; Mississippi, 78; Lonisiana, 70; Texas, 69; Arkansas, 65;

Tennessee, 89. Heavy rains in July damaged the A drouth which extended over Alabama, Mississippi, Lonisiana, Arkansas and Texas for several weeks, produced more or less damage and in many counties complaints are made of rapid shedcrop is irreparably damaged from drouth and excessive heat.

Some counties in Texas report the crop in good condition, fruiting well, promising an average yield. But over has fallen, they have come too late to be of benefit. The continued drouth and hot dry winds have done considerable damage in some counties. There is complaint of too much dry weather in Tennessee, otherwise the crop is doing fairly well. The crop over almost the entire cotton belt is maturing rapidly and is earlier than for many years, partly from early planting and partly from premature ripening.

SALOONKEEPERS PLEADING.

Alleged Excessive License Fee Heading Off Profits.

common council is wrestling with the Fiord. question of reducing the saloon license fee. Saloon men, in their petition, claim that the hard times and the Nicholson law have made it impossible to pay the fee of \$250 per year and derive any profit. The Good Citizens' league insist that the license shall be maintained and say that' they do not care how many are forced out of business; that the city will be none the loser, as the lessened cost of maintaining the police department and jail will more than offset the decrease in revenue paid by

the liquor dealers. The city council has, among other things under consideration, one to reduce the dealers' license \$50 or \$100, and make up the deficit in revenue by taxing the breweries and brewery agencies of the city \$1,000 per annum.
To this proposition the Terre Haute Brewing company checrfully assents. They have the bulk of the local trade and ean much better afford to pay the license than any of their ontside competitors. There are but four other breweries maintaining agencies hereand the Anheuser-Busch.

LONDON, Aug. 11.—The Times has a dispatch from a correspondent at Vadsoe on Varanger Fiord, near which point observations were taken by Mr. Downing, superintendent of the British nautieal almanac and a number of other English astronomers, including Sir Robert Ball of Cambridge.

This correspondent describes the impressive scene of the moon's shadow seeping over the earth at the moment of the totality of the eclipse.

"The view from Dr. Common's observatory," he says, "extended for 30 miles up Varanger Fiord to the mountains opposite. The deep purple shadow plunged the mountains in temporary obsenrity. As it advanced across the Fiord, the shadow enveloped the training squadron, the details of the rigging disappeared from view and the ship's lights gleamed forth brilliantly. Still the shadow pressed on with majestic speed, a mile in every two seconds. It

magnificent phenomena was worthy of remembrance, scientific results of all the labors were hardly anything. The light around was not greater than that of a full moon, but in the distance the mountain tops were shining brilliantly. "The manner in which the darkness lifted was almost startling in its sud-denness, but the sun was still hidden in

clouds.' Dr. Andrew Ainslee Common, from whose observatory the above described scene was observed, is the treasurer of the Royal Astronomical society and year was 77.9, which was the lowest gold medallist for work in celestial photography.

LYNCHERS FOILED

By a Key Catching in a Lock-Bullets Didn't Reach.

GLASGOW, Ky., Aug. 11 .- An unsuccessful attempt was made Sunday morning to take Nick Ray from the Edmonton jail and lynch him. Ray, it will be remembered, an the 4th of last month, at Edmonton, shot down in cold blood and killed Attorncy Albert Scott of Glasgow. He was indicted by the grand jury of the Medcalfe circuit court, and afterward secured a change of venne to Monroe county, being committed to jail in the meantime without bail by Circuit Judge Wallace Jones. A mob of about 20 surrounded the jail, and three men succeeded in opening all of the jail doors until they reached Ray's cell, and here they got the key fastened in the lock and conldn't get the door open. Seeing Ray through the small grating in the door, they opened fire upon him, but although a number of shots were fired none took effect. Ray claims to have recognized in one of the three men who tried to effect an entrance to his cell Tyler Scott, a brother of the man he killed. He saved himself by crouching in the corner of his cell next to the door, so that men ontside could not bring their pistols to bear upon him.

SWELTERING BUT JOLLY

For the Annual Meet.

LOUISVILLE, Aug. 11.-Hundreds of wheelmen have come to Louisville. some by rail and some by wheel, all men of any note are here, all the offieers of the L. A. W. and erowds of members, and the 17th annual meet is no longer a matter of expectation. The day was passed quietly, there being little business of the pleasure seeking variety, though there was enough of the business of getting ready and preparing for the events that are to come. The information bureaus have been more than busy and these, with the registration headquarters and Steward Maxwell's punch bowl, are the centers of attraction. It was too hot for any long runs, and aside from the headquarters, Fonntain Ferry park, with its shade and breezes, was the center of attraction for the visiting wheelmen.

The heat has not interfered with the training work of the racers and their trials were watched all day by erowds of eager wheelmen and women. All of eager wheelmen and women. All the cracks were ont, and some creditable work was done. While the meet began yesterday, it will not be until Wednesday that the really important part of the program commences. Then the races begin and the annual meeting of the Kentucky division of the league will be held. These are the two most important features of the week. The different means of entertainment that different means of entertainment that have been provided for the visitors will, of course, be attended by large numbers of wheelmen, but they will be simply entertained, while the other events have an interest all over the country.

A large party of wheelmen started for the track at 4 o'clock yesterday afternoon when the first run of the meet was given. The run was under the di-rection of the members of the Meet clnb. Last night the first smoker was held at the track. It was a stag affair and was in the nature of a rennion of the older members of the league whose aequaintances were renewed and preparations made for the enjoyment of the

cvents of the week.

The grounds were crowded all evening. The old timers are familiar with the pleasures to be enjoyed at Fountain received that the English, American Ferry. To the new comers "the wheel-

Navyyard Dock.

BROOKLYN, Aug. 11.-An accident at the Brooklyn navyyard which caused upward of \$100,000 damage, for which some one will have to be held responscene of the catasthrope was the timber dry dock bnilt about seven years ago. The dock is 400 feet long, 65 feet wide, and had a depth of 27 feet. It was about 7:30 p. m. Work was over for the day, and so far as ean be learned no one was present when the accident oc-

The offleers of the yard were extremely reticent when asked for an explanation of the trouble, but so far as could be learned, a wave eaused by a passing steamer, which forced itself beneath the heavy caisson at the month of the dry dock, capsized it, throwing it into the doek and allowing the water to rush in, is the solution. The dock was nearly empty at the time, and the force of the water rushing in eansed the moorings of the torpedo boat Eriesson to snap, hnrling it against the end of the dock. About 12 feet of the bow of the Eriesson was stove in, and the stern of the boat

The captain's launeh, tied up near by, was also torn from her moorings and carried by the force of the water into the dock, where she is now completely submerged. The monitors Puritan and Terror also broke their cables, but were not seriously injured.

The report that several men had been drowned proved upon investigation to be nutrue. A large piledriver, together with a scow loaded with stone was also carried into the dock.

The caisson, which is made of steel was at the time having its stone and water ballast removed, with a view of having it replaced by cement, and on this account had become lighter, allowing the wave to lift it. A court of inquiry wil probably sift the matter.

All the racing the north, collided with a yard engine hanling a cut of cars at the Sandusky street crossing. Engineer Charles Vance of the yard engine, whose home is in Kenton, was instantly killed. Engineer C. E. Cullison of the passenger, who lives in this city, is so badly ent and bruised that fears are entertained for his recovery. William Smelair, fireman of the passenger, whose home is in Columbus, had one leg cut off and sustained other injuries, probably fatal. Brakeman Belatt of the yard crew was also injured.

Fireman Bennett of the yard engine saved himself by jumping. The passengers on the incoming train were badly shaken up, but none of them hart so far as reported. The engines were both badly wreeked. The responsibility for the accident is not definitely determined, but it is supposed to have been caused by some mistake of the signals.

FIRE FIENDS

Played the Deuce With This Man's Properly-Incendiary at Athens.

ATHENS, O., Aug. 11.—The fire fiend got in his work here yesterday. Fire was set to the new dwelling of Dick Laird and the flames soon spread to his other house on the lot east. James Osmond's house caught fire and burned completely, as did Laird's, also. About the same time lire was set to Dick Laird's saloon and restaurant on Main street. The incendiary entered the saloon from the rear window and bored a hole with an augur in 18 whisky barrels and the liquid flooded the floor. The heat from the flames was intense. The fire department worked well and were able to confine the flames through the one building, although those adjoining were considerably damaged by the heat and water.

WILLIAM SIMEON SMITH.

A Former Maysvillian Who Is Famous in Insurance Circles Throughout the Land.

The Boston Beacon, in its issue of August 1st, contained a cut and complimentary sketch of Mr. William Simeon Smith, and that always insures a victory. who formerly resided in Maysville, and who still has many warm friends here. The Beacon says:

The above is an excellent likeness of that bigbearted, great-minded bachefor, William Simeon Smith, actuary of the John Hancock Mutual Life Insurance Company of Boston.

The writer stole the picture months ago, for i was impossible to get one from Mr. Smith, and this brief sketch has been picked up from those who know the man. Some day Brother Smith will realize that the true story of his twenty-five years conscientions, faitiful work in the service of Massachusetts and Kentucky will serve as an inspiration to aspiring youth, and he will ther sacrifice his modesty for the general good, but he has not yet come to a full realization of this, and so his work can be lightly touched upon He was born in Sutlield, Conn., fifty-seven years ago, and was educated at and graduated from Williams Coflege, Williamstowne.

For several years he was Principal of the High School at Maysville, Ky., but in 1870 he began the work which has since made him famous lu Insurance circles throughout the country. The Kentucky Legislature had just created an Insurance department with General Gustavus Smith as Insurance Commissioner. William S. Smith was chosen deputy and served in that eapacity for six years. Never "skimping," invariably accurate, the benefits of a well stored mind, possessed by a man devoted to his work, were given to the new insurance department of the Blue Grass State, and the saintary infinence of the department in insurance matters to-day is due in no small measure to the accurate work of Actuary Smith twenty years ago.

For twelve mouths from 1876 to 1877, Mr. Smith was Assistant Actuary of the Columbia Life Insurance Company of St. Louis, and in 1877 was Invited by his friend, Stephen II. Rhodes, then Massachusetts insurance Commissioner, to accept the position of Deputy Insurance Commissioner. He accepted, succeeding Major George H. Long, who became President of the Alliance Insurance Company of Boston, and remained with the department until 1881, when he became actuary of the John Hancock.

It is curious to notice that the man who perceived Smith's worth and brought hlm to the department twenty years after as President of a great life insurance company juvited him to the position he now holds.

Mr. Smith, as deputy, served under four insurance commissioners, Messrs. Rhodes, Clarke. Tarbox and Merriil. On the resignation of Mr. Bhodes, Governor Talbot offered the position to Mr. Smith, and on the removal of Julius L. Clarke, Governor Ben Butler again offered it to him; but Deputy Smith had no aspirations for a political appointment and each time gratefully turned it down. Beside the duties of deputy he took charge of the actual department, saying the State many thousands of dollars and bringing the actuarial department up to a state of elliciency which is not exceiled by that of any insurance company in the country. Mr. Smith Is an honored member of the American Institute of Actuaries and an associate of the International Congress of Actuaries. He is devoted to hls work and has no time for clubs, politics or married ilfe. He lives at the Norfolk House, and has made his home there for over twenty

Brilliant but unassuming, trustful as a child, but a warrior in a fight, "steel true and blade straight," William Simeon Smith adorns his profession and honors the company he serves.

Colonel Thomas was invited to address convention are instructed to vote for him and the convention and responded. He spoke about ten minutes, expressing his heartielt thanks to the Democracy of the county for the unanimous and enthusiastic endorsement they had given him in | broken off. his race for Congress. Whether he won or not, he would never forget the kindness and the courtesy the people of Mason had extended him. He was confident of winning the uomination, and if the party's banner should be placed in his hands, he would leave nothing un-

done to carry it to victory in November. It would be his duty as well as pleasure to fight for the principles of Democracy from every stump in the district and do all in his power to insure a victory for Bryan, Sewall and the entire ticket.

Col. Thomas' remarks were enthusiastically applauded. At the conclusion of his address, the conventiou adjourned.

EAST LIMESTONE. George Williams and family visited reintlyes tear Ripley Saturday and Sunday.

The several hard and successive rains of late have placed the land in bad condition.

A protracted meeting begins at Stone Lick August 9th. The pastor Rev. Tolie will be ably assisted by Rev. Trotter, of Maysville. Albert Kidder moved Thursday to the hand-

some residence he recently purchased from the Hall Brothers in the Hail plat, Sixth ward. The miniature evelone that visited this neigh borhood August 1st did considerable damage to

the corn by blowing it down. Much of it Patsy, the bright liltie daughter of Mr. and Mrs. Henry Wise, of Forest avenue, but formerly of this place, is seriously ili with inflammation

of the stomach. Richard C. Williams, who exeavated to the depth of several feet a natural depression on his farm last year during the drouth, now has a minlature lake, and a searcity of stock water on this

aiready weil-watered farm is a thing of the past. John Bradford, who was seriously ent across the right hand and permanently disabled while in the act of peace-making during a scrap at an iee eream supper near the fair grounds recently, is said to be getting along as well as could be expeeted. Mr. Bradford, who is a quite and industrious young man, has the sympathy of the community in his serious misfortune.

While Sweet's threshing machine was passing through a potato patch on Mr. Gilp's farm it is told by some of the most susceptible in the crowd that this business always attracts, that they notieed the broad tires slipping and sliding, and on examination, thinking probably they would find gold, found it to be potatoes. Donbtless without jesting Mr. Gilp has the champion potatoes, as they are as large as quart enps.

The people here are becoming enthusiastic over free silver, and a Bryan (Inb wfil soon be or ganized at Limestone. Many regard Bryan's nomination as a l'rovidential intervention at that late hour, and his speech in which he said: You shall not press down upon labor this grown of thorns," "You shail not cruelfy manklnd upon a cross of gold," a divine inspiration and the grandest thing ever said.

Bud Sweet, assisted by Seal Stewart and Martin Harover, of Brown County, has returned after a three weeks tour with his threshing machine. Mr. Sweet reports the wheat turning out remark--Miss Mariau Wormald has returned ably well, but the acreage very light. He threshed a crop of wheat, oats and rye for Richard C. Will liams Friday and reports the wheat, which is of the Russian prolific variety, to be the dryest and eleanest of any he has threshed during the season and fluely adapted for seed, of which he purchased a lot for that purpose for his own use Mr. Stewart, the famous Brown County songster, favored their hosts at Mt. Welcome during their two nights stay with some of his German and Seotch ballads.

The Game With the Louisvilles Monday Resulted In a Tie.

The Locals Outplayed the Leaguers at Most All Points-Newton's Fine Pitching.

The game of ball Monday afternoon with the Louisvilles resulted in a tie.

Had the locals put up au average game, the taileuders of the big league would have never reached scoring territory.

Tanner, Maysville's captain and second baseman, was sick, and he ought never to have gone into the game. He hit the first ball pitched, and it landed under the right field fence. Before Mc-Creery could reach it and return it, Tanner had scored. The run and the heat coupled with his sickness seemed to knock him out completely, and in the second inning he had three costly errors in succession, these with one hit and an out giving the visitors three of their runs.

Tanner retired at the close of the second inning Sutherland going to second, Cox to first and Wadsworth resuming his old place in center.

It was Wadsworth's first game since he was injured a few weeks ago, and he The services will be conducted by Rev. celebrated his return by doing some sensational fielding and also some fine work | Adams. Burial in Flemingsburg Cemewith the stick, getting a single and a two-bagger out of three times at the bat. Henry made several great catches after hard runs, accepting every chance.

Honeyman, the local's hustling little left fielder, also made several great catches. Once after a hard run his feet slipped from under just as he got the ball, but he pluckily held on to it, and was roundly cheered.

Newton's pitching was the feature of the game. He had the leaguers at his mercy, striking out seven of them and holding them down to six scattered singles. He easily carried off the honors, and at the bat rapped out a three-bagger in the ninth, scoring the tie run later on Wadsworth's two-bagger. His hit was the longest in the game, and was good for a home run, had the first baseman not interfered by trying to trip him.

Cox, Lautenbach and Shepard put up a good game, but some of the others had an off day, as the score shows. Cox's two-bagger in the seventh scored two

The visitors put up a poor game, and if this is a sample of their work it is not surprising that they are the tail-enders in the big league. Two of their men were guilty of some "dirty" ball playing, -Dexter and Cassidy.

The visitors quit at the close of the first half of the ninth, although they had plenty of time to finish the game and catch their train.

PARKER'S GALLERY

The Scene of a Lively Blaze Manday After noon-The Damage and Insurance.

Three young men entered Mr. J. F Parker's gallery in the Stockton building on West Second Monday afternoon and insisted on having some tintypes taken with eigars in their mouth. They were accommodated.

After they got their pictures, they left and Mrs. Parker then stepped up to Redmond's grocery. She was gone some time, and on her return found the room in a blaze.

Before the department could get to work the operating room of the gallery was gutted by the flames. The fire was soon extinguished, without much further damage to the building.

It is thought the fire started from a cigar stump or lighted match throwu among the back grounds by the party who got the tintypes.

Mr. Parker is at Lynchburg, O., where he was called some days ago by the serious illness of his mother. Mrs. Parker places her damage at \$800, with \$400 insurance in the Phoenix, Wm. N. Howe agent.

THE Y. M. C. A.

The Temporary Quarters Will be in the Cox Building-Committees Appointed Last Night and Other Business Transacted by the Directors.

The Directors of the Young Men's Christian Association of our city held their August meeting at the association hall, in the Cox Building, last evening. Mr. Henry E. Rosevear, State Secretary, who had spent the afternoon in the city, was a guest of the board.

The following members of the board were selected by Acting President, William H. Cox, to serve in the capacity of executive and finance committees:

Executive-M. F. Marsh, W. W. Ball, William Wormald.

Finance-John Duley, H. H. Collins, D. C. Hutchins, H. C. Sharp, S. M. Hall. According to the provision of the association by-laws, the fifteen directors are to be divided into three classes, each consisting of five members to serve one, two and three years respectively. This division of the term of office was made last

One Year-W. H. Cox, William Wormald, D. C. Hutchins, M. F. Marsh, H. C. Sharp.

Two Years-H. H. Collins, Sam M. Hall, Robert A. Cochran, W. R. Warder, W. W. Ball.

Three Years-J. James Wood, John Duley, I. M. Lane, James 11. Hall, James T. Knckley.

The directors decided to make use of the present Y. M. C. A. room in the Cox Building, as temporary headquarters for the Association members and the General Secretary, until a permanent location has been secured by the special committee who have that matter in charge.

The Executive Committee were given authority to purchase such fittings as will be needed at present for office and general use, and in a few days General Secretary Canfield expects to be located in these temporary quarters, where he will be pleased to meet the young men and business men and all other friends of the association.

The organization of the several committees, to have charge of the different departments of the association, and all other necessary preliminary work will be pushed forward as rapidly as possible, and further announcement of definite plans decided upon by directors or committees will be made from time to time.

The Finance Committee were instructed to collect at once the subscriptions made last spring by the business men, in order that the needs of the present and immediate future may be promptly met.

Those who have generously pledged their aid to this most excellent work, will confer a favor upon the committee by sending in their contributions at their earliest convenience to the Treasurer of the association, Mr. W. W. Ball.

State Council, Junior Order.

PORTLAND, Ind., Aug. 11.—Today the state council of the Junior Order Inited American Mechanics, and the national council of the Daughters of America will meet in this city for their annual sessions. Delegates will attend from all parts of the state, and the local lodges are making elaborate preparations to entertain them. ACRES OF PEOPLE

Welcome Mr. Bryan at Pittsburg-The Crowning Ovation.

PITTSBURG, Aug. 11.—The meeting in this city has proven a fitting eapsheaf of the day's triumphs. It has excited the amazement of the people of Pitts. burg and the joy that it has afforded Mr. Bryan and the redoubtable silver "Dick" has manifested itself in their beaming features since they struck the city limits. The exceptionally long train on the Pennsylvania Central, which, it was almost Impossible to traverse during the last 100 miles because of the numerous committees and enthusiasts who had boarded and spread themselves out over the conveniences, ran into the Pittsburg depot at 6:50 p. m.

It was immediately surrounded by acres on acres of frantic people. When Mr. Bryan emerged from the train, in It was immediately surrounded by acres on acres of frantic people. When Mr. Bryan emerged from the train, in spite of the efforts of the large local committee to carry out its program, the crowd closed around him and it was a free-for-all-fight from that time on for every person in the Bryan party, except Mr. and Mrs. Bryan and Mr. and Mrs. Bland. When they entered their carriages the relentless throng closed around them and seemed to bear them along at its will. Through the various streets traversed no available space could be discerned. Every foot of ground along the way was occupied by ground along the way was occupied by enthusiasts. When the Central hotel cleanliness, without debilitating the was reached a cordon of polico was stationed at the main entrance and formed all important, in order to get its bene-a narrow passageway leading to the staircase. No one was allowed to tread chase, that you have the genuine article, it except those who could show unmistakable credentials.

There were police on the stairs, police in the halls, police at the dining room door and everywhere else where men and women might seek to go and even at the door of Bryan's room. While Mr. and Mrs. Bryan were supping with a committee of ladies and gentlemen, the streets resounded with the continuous clamor from thousands of throats. Many marching clubs pierced the stubborn crowds amid showers of pyrotechnics, and a roar that would have rivaled Niagara's thunders.

The evening meeting had been announced to occur at 8 o'clock in the Grand Opera House and the Avenue theater, kindred halls side by side and owned by the same parties. Each hall will seat between 2,500 and 3,000, and meetings were to be held in each. Long before the hour for opening the doors, the entire street front of these structures was packed full along the entire block and after the doors had been opened and tho structures were filled, the crowd outside had suffered little perceptible diminution. A corps of 100 policemen was on duty at the various entrances and in the course of the early evening there was an incipient riot in which one man was severely beaten and some of the officers had their bruss buttons torn

When Mr. and Mrs. Bryan and members of their party rode around from the hotel and entered the first hall, both of them were packed to their full standing years he was the leading meat morchant in this city. Last winter he conceived room capacity, and it is said that half who applied had not been admitted. The crowd lingered outside in nolsy but the idea that a fortune awaited him at peaceful disappointment, singing, cheerach round-trip tickets to Parks Hill Angust 6th Indianapolis, and he established a shop to 17th at 80 cents.

On Sundays, August 9th and 16th, special trains a losing venture. Then, he came back began, diminished it but little, the a losing venture. Then he camo back streets remaining full until the meet-

Surveying a New Railway Line.

MUNCIE, Ind., Aug. 11.—Ten men under the direction of Charles L. Ratlilf, formerly a government surveyer, commenced a preliminary survey yesterday for a railroad between this city and Richmond, after which they will survey a line from this city to either Wubash or Huntington, where connections will be made for Chicago. Mr. Ratliff can not be induced to tell anything, only that eastern capitalists are behind the Pennsylvania has the enterprise in charge. Should this be true the Big Four will break its agreement not to enter Richmond, and will bulld into that city at once.

"Long Live Cuba."

VALENCIA, Spain, Aug. 11 .- The attempts to eauso riotous demonstrations against the government continue. This city yesterday was placarded with posters reading: "Long live free Cuba;" "Long live the social revolution," etc. Tho placards were removed by the po-
